

THE SPECIALISTS OF THE ULTRA LIGHT TRAILER

LITE UP YOUR LIFE!

25TH ANS
YEARS

Prolite

A BLISSFUL ESCAPE

From small families to great explorers, young adventurers to nature lovers, you're sure to find an RV that's just right for you among our wide selection.

FEEL LIKE TRAVELLING LIGHT?

25 YEARS OF ULTRALIGHT ADVENTURE

Established in St-Jerome (QC), Prolite manufactures high-quality ultralight RVs for 25 years. Our specialty? Designing durable eco-friendly RVs towable with a compact car and small SUV for your travelling freedom. Our large family is made up of a highly dedicated and passionate team, a strong network of dealers spread throughout North America, and thousands of travelers and vacationers who have chosen Prolite RVs over the years.

WHO IS PROLITE?

A Canadian manufacturer of ultralight trailers since 2000, Prolite offers a wide range of Ultra lightweight trailer models that can be adapted to an everyday vehicle.

PROLITE IS FOR EVERYBODY

MADE IN CANADA

ABOUT THEIR CONSTRUCTION

Ultralight. Sturdy. Reliable. High quality. A Prolite trailer is built from the ground up with these 4 core elements in mind. Made to order, quality drives every step of the Prolite manufacturing process.

High-quality materials, such as Durafoam insulation and Tekmodo floor paneling, keep the elements out while keeping you and your family dry. The use of sustainable, eco-friendly materials results in less waste, while strong, light 5/8 inch poplar floors, waterproof, scratch- and UV-resistant fiberglass shells and nautical seals protect your trailer from any kind of weather without sacrificing our ultralight advantage.

Ultralightweight is the core element of a Prolite trailer. Our lightest trailer weighs in at only 630 pounds - so light that even a subcompact car can comfortably tow it! So whether you're looking for a small trailer for your subcompact, or a large family trailer for your SUV or van, there's a Prolite trailer that will fit your lifestyle.

Pleasant driving, no matter the destination.

For your everyday vehicle.

One-piece fiberglass shell for superior sealing and sturdiness.

Equipped to meet your needs.

Excellent resale value.

Aerodynamic design.

Ideal for escaping to the outdoors.

A woman with long brown hair, wearing a blue denim jacket over a grey sweater, leans out of the open window of a white vehicle. She is looking upwards with a smile, her right arm extended towards the sky. The background is a vast, flat green field under a clear blue sky. The overall mood is one of freedom and escape.
